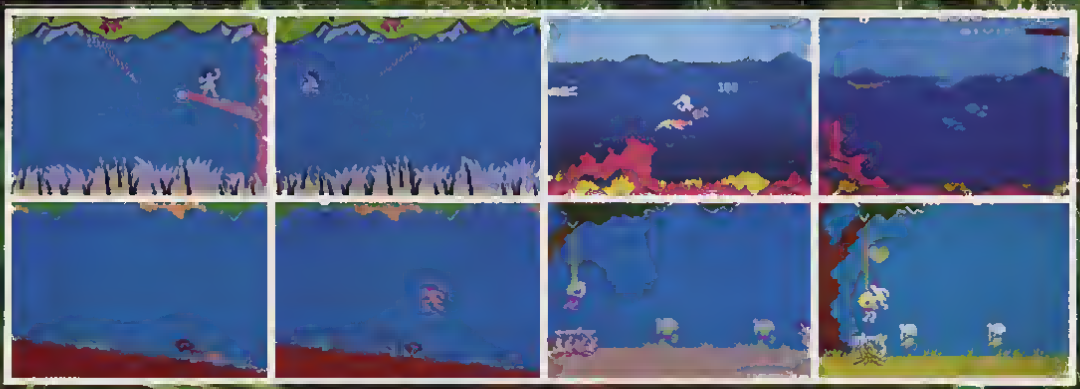
JUNGLE KING

It's a jungle out there! To save the Jun[illegible]ss from the hostile natives, the player is [illegible] with thrilling [illegible] that require a whole range of strategies [illegible]



First, timing is everything as the player must swing Jungle King from vine to vine, avoiding the monkeys that try to knock him off. Then it's into crocodile-infested waters where a thrust of the knife earns bonus points when it finds its target. The player must beware of the bubbles that float Jungle King helplessly to the surface and he must also watch the air supply or Jungle King will drown when the meter reaches "0"!

Once through the river, it's a dash uphill, jumping over or ducking under boulders rolling toward Jungle King. Finally, coordination is the key as Jungle King must leap safely over the barbarians armed with spears to save the Princess who's at the end of her rope . . . OVER A BOILING POT!!!

JUNGLE KING

JUNGLE KING™

to the rescue ...and to the top of the charts!

Each stage in the rescue attempt requires a different skill, a different defense or plan of attack. Sometimes only a quick, instinctive reaction will work; other times strategy must be matched with delicate timing for success. It's this variety of play, of characters and situations that is keeping players at the controls . . and keeping earnings on an upward swing!
